SAMPLE BLUEPRINT FOR CONSTRUCTING A CLASSROOM TEST

***Skill Focus**: Benchmark MA.D.1.2.1: The student describes a wide variety of patterns and relationships through models, such as manipulatives, tables, graphs, rules using algebraic symbols.*

Content Focus	Webb's Depth of Knowledge			Total Number of Items
	Low	Moderate	High	
Extend numeric pattern with list				
Describe numeric pattern with chart				
Extend geometric pattern				
Identify predictable pattern				
Describe relationship/rule using algebraic symbols				
Total Number of items				
Percent of items				

Note: Sample Blueprint can be extended to include focus on an entire stand or strands in reading, mathematics, or science.
