# Performance Levels

Default performance levels of 70% for proficiency will be used on the English Language Arts, Mathematics, and Social Studies test forms. Performance levels will be established in the 2015-2016 school year.

The following performance levels will be used for science, grades 5 and 8; and biology.

<b>Satisfactory Progress</b>	This student demonstrated a <b>satisfactory level of achievement</b> on the content focus of the Florida Sunshine State Standards assessed during this instructional period. To attain high levels of achievement in this content area, the student must <b>receive continued instruction on the challenging content and skills across the benchmarks</b> designated for this grade level.
<b>Limited Progress</b>	This student demonstrated a <b>limited level of achievement</b> on the content focus of the Florida Sunshine State Standards assessed during this instructional period. To attain high levels of achievement in this content area, the student must <b>receive targeted interventions and remediation in the areas of concern, and continued instruction on the challenging content and skills across the benchmarks</b> designated for this grade level.
<b>Insufficient Progress</b>	This student demonstrated an <b>insufficient level of achievement</b> on the content focus of the Florida Sunshine State Standards assessed during this instructional period. To attain high levels of achievement in this content area, the student must <b>receive intensive interventions and remediation in the areas of concern, and continued instruction on the challenging content and skills across the benchmarks</b> designated for this grade level.

# Disposition and Retention of Materials

- Science reference sheets may be retained at the school site for subsequent administrations.
- Reading, Mathematics, Science, and Social Studies materials for the visually impaired should be destroyed securely at the school site.
- Unused regular print Reading, Mathematics, and Science test booklets should be retained at the school site for subsequent administrations.
- **Used** regular print Reading, Mathematics, and Science test booklets should be securely destroyed. (Do not loosely place test booklets in a trash can or dumpster.)

# Disposition and Retention of Materials (cont.)

- **No used or unused** test booklets may be sent home with students.
- Test booklets may be used for debriefing purposes with colleagues and students.
- Test booklets should not be used on an ongoing instructional basis beyond initial debriefing period.
- Store materials in a secure location to be used in subsequent years.

# Debriefing

- Collaborative debriefings (administration, department heads, and classroom teachers); should take place in a timely manner to identify strengths and weaknesses in order to effectively target instruction.
- Classroom debriefings (classroom teacher with students): provide students with the opportunity to review their responses and teachers with teachable moments to identify and address concepts not initially understood.
- The Baseline Assessment should be used to determine students' access points of learning as well as for obtaining essential information for targeting differentiated instruction and as such should not be used to debrief with students; likewise, Fall and Winter Interim Assessments is an opportune time to conduct the debriefing process.

# Debriefing Guidelines

- Provide students with their test and answer sheet.
- Discuss any items you found to be problematic for the class as a whole.
- Listen to students' comments and reactions.
- Make notes of any deficient or problematic areas during this process.
