

# M-DCPS Basic Configuration for PERT

## Create A User Account for PERT

M-DCPS is using the username format “XXXXpert” for each school site. This account does not need any unique security permissions on the local computer or any server share.

## Use Group Policy to apply restrictions to the user account

M-DCPS is using Group Policy to manage the user interface of the PERT account. All of the following settings are User based as we do not want to modify the settings for all users of the computers.

- Logon Script
  - Set Screen Resolution to 1024x768
  - Terminate the explorer.exe process
  - Start Internet Explorer in Kiosk-mode.
- Configure Internet Explorer
  - Configuration of the proxy server settings to point to the local machine
  - Bypass the proxy server for the following locations:
    - \*.measuredsuccess.com
    - \*.vantage.com
    - \*.mccantesting.com
    - 199.7.240.25
  - Prevent the modification or configuration of:
    - Proxy Server settings
    - Connection settings
    - Home Page settings
      - Set Homepage to <https://college.measuredsuccess.com>
    - Turn off pop-up management
    - Turn off tabbed browsing
    - Turn off Auto-Complete
    - Disable Context Menu
    - Empty Temporary Internet Files when the browser is closed
- Configure Windows Environment
  - Prevent access to registry editing tools
  - Prevent access to command prompt
  - Disable screensaver and prevent changes to the screensaver
  - Remove the Password, Lock, and Task Manager from Ctrl+Alt+Del screen
  - Remove the Context Menu from Windows Explorer
  - Turn off Windows+X hotkeys
