

Baseline Interim Assessments

Grades/Students

Administered in Science, for all students in grades 5 and 8.

Date

Administered in the fall (first semester) of each school year.

Description

Baseline Benchmark Assessments (BBA) is a preliminary assessment in Science used to determine students' strengths and weaknesses on the Sunshine State Standards.

Results

The science assessments are scored at each school-site using the District's computerized management system. Score reports may be generated at the student, classroom, school, and district level.

Basis of Test

District tests to be administered in all schools for instructional purposes, progress reporting, or as a measure for the School Improvement Plans.
