• To provide meaningful results and to protect the privacy of individual students, data is printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole numbers.

• Achievement Levels 3-5 are grouped together for comparison.

• Reporting category results are not intended for comparison across administrations.

• To provide meaningful results and to protect the privacy of individual students, data is printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole numbers.

• Achievement Levels 3-5 are grouped together for comparison.

• To provide meaningful results and to protect the privacy of individual students, data is printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole numbers.

• Achievement Levels 3-5 are grouped together for comparison.
