TO: The Honorable Chair and Members of The School Board of Miami-Dade

County, Florida

FROM: Rudolph F. Crew, Superintendent of Schools

SUBJECT: RESULTS OF THE 2007 ACT ASSESSMENT

On August 15, 2007, ACT, Inc., released national, state, and District *ACT Assessment (ACT)* results for the 2007 graduating class. These results summarize the performance of the District's students in the class of 2007, who may have taken the *ACT* as sophomores, juniors, and/or seniors. For students who took the test more than once, the most recent test scores are included in the analyses. The results for the class of 2007 are compared to those of their counterparts in the class of 2006.

Approximately 37% of the students in the class of 2007 took the *ACT* college readiness assessment, up from 30% in the class of 2006. This represents an increase from 6,417 students in 2006 to 8,233 students in 2007. Highlights of the results and a summary of the results for individual schools are provided as attachments to this memorandum.

As with all college entrance exams, the population tested consists of self-selected students who participate on a voluntary basis. As a result, student demographic characteristics and the number and percent of students tested at each school can vary greatly both among schools and from year to year. Therefore, caution should be used in making comparisons, particularly in schools with relatively low numbers of students tested.

Should you have any questions about the 2007 *ACT* results, please contact Ms. Antoinette Dunbar, Deputy Superintendent, Curriculum and Instruction, at 305-995-1451 or Ms. Gisela Feild, Administrative Director, Assessment, Research, and Data Analysis, at 305-995-2943.

Highlights of the ACT Assessment Results Summary Report for Miami-Dade County Graduating Class of 2007

District Results

- The percentage of students participating in the *ACT* increased from 30% in 2006 to 37% in the class of 2007.
- In general, mean ACT scores for the class of 2007 were slightly lower than those for the class of 2006 at the District and state levels, and slightly higher at the national level.
- At the District level, the mean *ACT* score in Mathematics increased slightly, but the scores in all other content areas and the Composite score decreased.
- For all reported scores, the national mean scores were highest, followed by the state's and then the District's scores.

Individual School Results

- Sixteen percent (16%), or 7 of the 43 high schools with ten or more participating students, had Composite scores at or above the national mean of 21.2.
- Thirty percent (30%), or 13 of the 43 high schools with ten or more participating students, had Composite scores at or above the state mean of 19.9.

MIAMI-DADE COUNTY PUBLIC SCHOOLS Summary of District, State and National Results for the ACT Assessment Graduating Class of 2007

On August 15, 2007, ACT, Inc. released district, state, and national results from students in the 2007 graduating class who chose to participate in the *ACT*. The *ACT* is a curriculum-based measure of college readiness which includes subtests in English, Mathematics, Reading, and Science. *ACT* scores can range from a low of 1 to a high of 36.

The 2007 *ACT* mean scores for the English, Mathematics, Reading, and Science test sections, as well as the overall Composite scores, are presented in Table 1 for the District, the state, and the nation. Individual school *ACT* results for the class of 2007 are presented in Table 2. This table displays the number of test-takers at each school, as well as the mean scores for each subject area test and the accompanying Composite score. School summary score results are not presented if fewer than 10 students participated; however, the data for these schools are included in the District and state results.
