Estimados padres o tutores:

En la primavera del 2005, su hijo(a) participó en la aplicación de la Décima Edición de la Prueba de Logros Stanford (Stanford Achievement Test, Tenth Edition o SAT-10). Les proporcionamos los resultados obtenidos por su hijo/a en el SAT-10 y el percentil de las calificaciones.

El SAT-10 mide los logros en un examen que se aplicó a nivel nacional a un grupo de estudiantes. El rango de las calificaciones percentil va desde lo más bajo 1 hasta lo más alto 99, con el 50 representando el promedio. Por ejemplo, una calificación percentil de 48 significa que su hijo/a ha desempeñado igual o mejor que el 48% de los estudiantes en el grupo de la norma nacional. El rango de los estandines va desde el 1 al 9, con el 5 representando el promedio. Los estandines del 7 al 9 representan un desempeño superior al promedio; los estandines del 4 al 6 representan un desempeño promedio; y los estandines del 1-3 representan un desempeño inferior al promedio.

Si necesitan más ayuda para interpretar las calificaciones, por favor, comuníquense con la escuela de su hijo/a.
